- Built-in simple ordering and blazing fast checkout

iOS and Mac App Localization

- Quickly localize app metadata for the App Store
- Localize any Xcode iOS and Mac app projects
- Automated localization process
- Macronization: Automatic conversion of strings into localizable strings
- Duplicate strings handling
- Automatically export localized resource files back into Xcode

Marketers and Developers Love this App

I had no idea where to start...

"Thanks for making it so easy." Barbara D.

All the key elements in one tool...

"Every iOS developer should have this app for localization." Kurt L.

We wanted greater reach...

"We needed the ability to quickly translate content for a global project, this app saved us a ton of time." Ellen S.
